## ABE RUEF AND NATIVE SONS' EXPULSION

Says That They Can't Put Him Out of  
the Order---Retires From Office  
for Personal Reasons.

SAN FRANCISCO, April 24.—Abe Ruef, charged with extortion, says that he believes the Grand Jurors of the Native Sons of the Golden West cannot expel a member of a subordinate parlor of that order. He also says that he has not been dropped from the position of grand trustee of the Native Sons, but that he declined to serve in such office.

"What do you think about the action of the grand trustees of the Native Sons of the Golden West dropping you as a member of that body?" was the question propounded to Mr. Ruef this morning by THE TRIBUNE correspondent.

"I have not been dropped from the Board of Grand Trustees," was the reply.

"That is the story which has been published," said the correspondent.

"Well, it is not true," replied Ruef. "I myself, declined to serve on the board."

No reference has been made to that fact in the papers," said the correspondent.

"I know that to be the case, but this is the first time I have referred to it. Some time ago I notified the chairman of the board of grand trustees that I would not be able to attend to the duties. No action was taken because no meeting was held from that time up to the time of the holding of the recent meeting in Napa."

"How long since you notified the board of grand trustees that you would not serve?"

"About two months."

"What do you think of the move on the part of the board of the Native Sons, and Mayor Schmitz, and Mr. Gallagher from the order?"

"I do not know, but I suppose the Grand Jurors and members of the order will be governed by the fact that a man is presumed to be innocent until he is proven guilty."

"I am of the opinion," continued Ruef, "that no action in that direction would be made by the subordinate parlor. I do not think a Grand Parlor or lodge would be obliged to expel a member under such circumstances. I admit that the Grand Lodge or Grand Parlor might expel a member belonging to that body, but it would have no power over members of a subordinate lodge or parlor. Now the Grand Parlor might expel Gallagher."

## ONE IS KILLED MANY ARE HURT

Strange Accident to Santa Fe  
Overland Train---The Injured  
Taken to Los Angeles.

INSIDE, April 24.—John G. Willett, section foreman, was killed, J. G. Taylor, brakeman, suffered a broken shoulder, and several passengers were cut with flying glass in a peculiar collision on the Santa Fe at Cajon Pass last night. A freight train was accidentally derailed at this point, and the west-bound overland passenger train had been stopped half a mile distant at the top of the grade while the truck was being cleared.

## WRECK DELAYED RACE AGAINST DEATH

LOS ANGELES, April 24.—Judge Alexander Chytrous of Chicago, who crossed the country in a special train to reach the bedside of his wife, who lives at Glendale Sanitarium at the point of death from Bright's disease, reached this city today and was driven to the sanitarium in an automobile, arriving there at 11:40 a. m.

The condition of Mrs. Chytrous remains unchanged, but there is said to be no hope for her recovery. Judge Chytrous began his journey over the Santa Fe, but arrived over the Southern Pacific, his train having been derailed at Barstow over the latter line because of a Santa Fe wreck at Cajon Pass, between Barstow and Los Angeles.

## RUEF AWAITS DECISION OF THE SUPREME COURT

Says That Judge Dunne Will Later Order  
Mayor Schmitz Into Custody  
of Elisor.

SAN FRANCISCO, April 24.—No decision has yet been received from the Supreme court of the State, which is sitting at Los Angeles, in the application of Abe Ruef, charged with extortion, for a writ of habeas corpus, so as to free him from the custody of Elisor Elisor, and either admit him to bail, or place him in the custody of Sheriff O'Neil.

"I do not know," said Ruef, speaking of the subject today to THE TRIBUNE correspondent, "when the decision will be reached. I do not think that the court really decides the case excepting in a place where the arguments have been heard. The habeas corpus application has heard here in this city."

"I saw in the paper that Justice Angellotti, of the Supreme court, is writing the opinion."

"I do not know how they learned that."

Ruef was asked how he explained the application of the counsel for Mayor Schmitz, as friends of the court offering views as to why Ruef should be admitted to bail, and replied:

"I really do not know. I never heard of it before it was filed."

"Do you think Schmitz may also be placed in the custody of an elisor?"

"There is no doubt about it," said Ruef. "When Schmitz is brought to trial on this case, it is my impression that Judge Dunne will undoubtedly place him in the custody of an elisor as he has placed me."

Woman Finds Missing  
Husband Living With  
Missing Wife.

Serious Charges Result in a  
Mixup of Family Affairs,  
Which Law Must Untangle.

SAN FRANCISCO, April 24.—About the same time that Mrs. E. J. Effenbach of Joliet, Ill., more recently of St. Louis, was looking in Oakland for her husband, who had deserted her months ago, Carl Gompertz, a well-to-do physician, merchant of this city, went in search of his recently divorced wife, who had mysteriously disappeared with their ten-year old daughter.

Gompertz proved himself an exceptionally clever sleuth and with only the knowledge of the location of a dentist's office in Oakland, where he knew the girl once had a tooth pulled, as a clue, he succeeded after several days of skillful search in locating his little girl and her mother, who he discovered to be living with E. J. Effenbach, a switchman in the employ of the Southern Pacific, who later turned out to be the erring spouse of Mrs. E. J. Effenbach of Joliet, Ill.

Mrs. Gompertz was recently granted an involuntary decree of divorce, and according to the laws of the State of California would be compelled to remain single until the expiration of one year. Gompertz summing up the situation decided that he had just cause to demand the custody of the child and therefore applied to Judge Morgan in Department 7 of the Superior Court. The case came up this morning, but Mrs. Gompertz was in court with her lawyers and secured a continuance until Friday morning. After the court had granted the continuance, Gompertz left for Oakland to swear out a warrant for the arrest of his former wife and Effenbach on a serious charge.

It is said that Mrs. Effenbach, after being given the cold shoulder in Oakland by her husband has returned to St. Louis.

As published in THE TRIBUNE of April 17, Mrs. Effenbach journeyed all the way from Joliet via St. Louis in search of her faithless husband and found him in Oakland where he informed her that he loved the woman he was living with better than he

## ENGINEER RACED HIS TRAIN AGAINST A RUNAWAY BARN

CHICAGO, April 24.—A dispatch to the Record Herald from Lexington, Ky., says: "Engineer Scannon of a Chesapeake & Ohio freight was the hero yesterday of a thrilling race between a train and a barn, with several lives at stake. Scannon's train was passing Tebb's Station, near here, at a good rate, when the high wind which was blowing lifted a big tobacco barn from its foundations and started it rolling down hill toward the railroad half a mile away. Scannon saw the danger and immediately threw the throttle wide open in an effort to outrun the barn."

The heavy train was on the down grade and soon attained great momentum, but just as it looked as though the peril would be outrun the big barn crashed into the caboose, smashing it. The impact also shattered the barn, which collapsed on the track. Trainmen on the caboose saw their peril in time to escape by jumping.

## POLICE THOUGHT THAT THEY HAD CAUGHT ASSASSIN OF MARCOVICH

Word received at the headquarters of the local police department shortly before noon today to the effect that Frank Smith, alias Short, murderer of John Marcovich, proprietor of the Gas Kitchen, had been arrested in Hayward, caused Chief of Police Wilson to dispatch Captain Peterson and Detective Hodgkins to the scene in an automobile.

Speeding as rapidly as the car could be run, the officers soon arrived at the jail of the suburban town, and after careful questioning discovered that the man was not the much wanted slayer of the restaurant proprietor.

"I'm a bad man, and I'll fix you," were two of the expressions that finally resulted in the arrest of the man suspected of being the murderer, by Constable Ramage of Hayward.

It appears that the man came here from Goldfield two or three days ago and took a position in the New England Bakery in the suburban town.

The Hayward officers have been keeping a careful lookout for the Marcovich murderer and as the man arrested was a stranger and acted suspiciously he was watched carefully.

Last night he went into a Hayward saloon and had trouble with the proprietor over the payment of a drink. It was then that he made the remarks that he was a "bad man" and would "fix" the liquor dealer.

"The actions of the man made me suspicious," said Constable Ramage this morning, "and I shadowed him constantly from the time he arrived in town. His statements made in the saloon decided me and I caused his arrest."

The stranger answers the description of Smith in many respects, but after careful questioning Captain Peterson and Detective Hodgkins decided that he was not the murderer of Marcovich, and his release followed.

## ARREST THIS MURDERER IF YOU SEE HIM

Chief Wilson has no clew to Frank Smith, alias Short, the murderer of John Marcovich. Here is the circular just out calling for his arrest:

"Wanted for Murder—\$500 Reward for arrest, or information that will lead to arrest of Frank Ernest Smith, alias Samuel E. Short, alias Ed. C. Short.

"White man, American, age thirty years, height five feet six inches, weight about 155 pounds, complexion fair, hair light brown, more to a blonde, bald on top towards back of head, thin on top of head towards front, combs flat to head and covers most of baldness, smooth round full face, prominent high forehead, nose comes to a point and slightly tilted to the right, small snappy eyes, has peculiar habit of blinking them, carries his left shoulder slightly down and forward and inclines his head to shoulder, walks with a quick stride, scar on forehead, scar on left wrist and thumb, scar on left knee cap, scar on right thigh, scar on left hip, scars on front of both upper arms."

"Enlisted in San Francisco, Cal., June 14, 1898, in 'H' Battery, 3rd Artillery under name Samuel E. Short as bugler, discharged in Philippine Islands, July 6th, 1899; reenlisted July 8th, 1899, in Company 'A' 35th Volunteers, deserted April 8, 1900. Born in Jefferson, Texas, July 17, 1878. Occupation, waiter, hard drinker, chews tobacco, frequents houses of ill-fame and has been a pimp. He resided in this city for the last ten months, being employed as a waiter in the Gas Kitchen, a fashionable restaurant, known here as Frank E. Smith; Friday, April 19, 1907, he was caught, accused and discharged for stealing; at 11 o'clock p. m. the same date, he returned to the restaurant and cowardly murdered John Marcovich, one of the proprietors by shooting him in the back five times, instantly killing him, immediately making his escape; at the time he wore a dark double-breasted sack suit with small square check, coat square cut, light gray soft round top hat, may have had with him a dark hat, size of shirt 14½, collar 15."

"Please arrest, hold and wire at my expense, I hold warrant, charge murder."

"A. WILSON  
Chief of Police.  
Oakland, California, April 23, 1907."

## CALHOUN MUST GIVE A REPLY

Indications Are That There Will  
Be a Big Struggle Across  
the Bay.

SAN FRANCISCO, April 24.—The Carmen's Union this afternoon presented their demands to President Calhoun of the United Railroads.

The demands, which were prepared by the executive committee of the Carmen, were ratified by the union at the meeting last night.

The executive committee will meet again on Saturday evening, at which time it is believed an answer will have been received from the United Railroads.

The date will then be set by the committee for the final meeting of the Carmen. At this meeting what action is to be taken upon the reply will be decided upon. The agreement which the union submitted to the United Railroads insists upon a flat rate of \$3 per day for an 8-hour day and one and one-half the regular rate for all overtime.

CALHOUN WILL REFUSE.

SAN FRANCISCO, April 24.—When the committee from the Carmen's Union waits on President Calhoun of the United Railroads this afternoon with a formal demand for a new annual contract giving conductors and motormen a flat wage of \$3 and an eight hour day, that demand will be unequivocally refused, according to a joint statement made yesterday by the Associated Press by President Calhoun and General Manager Mullally in substance as follows:

The United Railroads absolutely declines to pay its platform men \$3 for an eight hour day. This is positive and final. The company has gone to the limit in the matter of wages. It will go no further.

WILL SIGN.

The United Railroads is willing to, and will cheerfully sign a contract for one year from May 1, 1907 to May 1, 1908, to pay the scale awarded by the arbitration committee whose findings were returned only seven weeks ago. The officers of the company do not believe a strike will occur. The hope is that an unfortunate move will be avoided. They want peace. But in any event the \$3 eight hour demand will not be granted. That demand is wholly unjust, and from the company's standpoint simply impossible to meet. The United Railroads in San Francisco is now paying its platform men the highest wages of any city in the world, with the single exception of Butte, Mont.

PRESENT SCALE.

The present scale was determined by an arbitration committee composed of Major Frank McLaughlin, representing the company, the Rev. Father Peter C. Torke, representing the men, and Chief Justice Hearty of the Supreme Court, chosen by the two. It is as follows: For one year in service, \$1.10 an hour and 37.2 cents over-

time; men two years in the service \$2.00 and 38.4 overtime; men three years or longer in the service \$3.00 and 39.6 overtime.

"This means, inasmuch more than sixty per cent of the platform men have been in the company's service three years or longer, that the average wage now paid is \$3.50 a day, including average overtime. This is for a ten hour day, and the average overtime pay is eighteen minutes a day."

"As the company understands the demand about to be presented, the most desired to reduce their daily wage on an average fifty cents a day; for they declare that conductors and motormen are physically unable to work longer than eight hours a day, so it is evident that they do not desire to earn any more than \$3 a day by working overtime; nevertheless, they include in their demand 'time and a half for overtime'."

NOT PRACTICAL.

"It is not practical to operate street railways under the eight-hour arrangement. The men know this. That the men who work two hours and eighteen minutes overtime and receive therefor \$1.35, which, plus the \$3 wage would make their pay \$4.35, instead of \$3.50 a day—an increase of 86 cents a day on top of 20 per cent increase awarded them only seven weeks ago, and in the face of the fact that the United Railroads is now paying, with one exception, the highest wages of any city in the world."

"This contemplated increase the United Railroads cannot and will not pay. The company employs about 2000 platform men on its San Francisco city lines."

## THOUSANDS OF PEOPLE WALKING IN CLEVELAND

Railway Company Suspends Operations  
on Certain Lines Owing to En-  
forced Three-Cent Fare.

CLEVELAND, April 24.—Thousands of people living along Central and Quincy avenues were compelled to walk long distances today in order to reach the business section.

The Cleveland Electric Railway company suspended operations on these thoroughfares, the United States supreme court having some time ago decided that the company's franchise had expired. Since then the company has been permitted to operate cars on a three-cent fare basis.

Recently the company notified the city authorities that it was losing money on the passengers carried at three cents, and that it would suspend service last night and at once begin the work of removing the tracks. The company attempted to do this today but the police compelled the workmen to abandon the undertaking.

The city administration insists that the removal of the tracks shall be done in accordance with a permit issued by the board of public service, which directs that tracks should not be interfered with and that the rails should be removed after a section, in order that service might be maintained by the opposition company.

## SONS OF ST. GEORGE HOLD THEIR ANNUAL BANQUET

Members of Albion Lodge and Their Friends Hold a Pleasant Meeting.

An exhibition of loyalty to the president of the United States and King Edward VII of England was displayed last night at the annual banquet given by Albion Lodge, Order of St. George, at the Piedmont Clubhouse.

Amidst unprecedented enthusiasm and good fellowship the sons and daughters of the Order of St. George assembled to do homage to the patron saint of Great Britain. English and American flags decorated the walls of the large dining-room in the clubhouse. The scarlet flags made a very pretty background and were very appropriate at this time of national festivities.

JUDGE SAMUELS IN CHAIR.

Judge George Samuels was chairman of the evening and made an address of welcome. James Carter, president of Albion Lodge, was in charge of the program. The following program was presented:

Oh say, can you see, by the dawn's early light,  
What so proudly we hail'd at the twilight's gleaming,  
Whose broad stripes and bright stars, thro' the perilous fight,  
O'er the ramparts we watch'd, were so gallantly streaming?

Oh say, does that star-spangled banner yet wave  
O'er the land of the free and the home of the brave?

Long live our noble King,  
Long live our noble King,  
God save the King.

Send him victorious,  
Happy and glorious,  
Long to reign over us,  
God save the King.

## BOARD OF WORKS TAKE UP MANY PUBLIC MATTERS

Important Street Matters Are Called to the Attention of the Commissioners.

In the Board of Public Works this morning, B. Ransome, of the Ransome Construction Company was called on to make an explanation why work on Twelfth street, between Harrison street and Lake Merritt, had not been started.

"We have had an order in for the past two years for a carload of bitumen every day. It is almost impossible to get bitumen and we have been hampered in every way possible. At this time we have one carload of bitumen in the yard, and shipping receipts for seven others en route. These should be here inside of a week. We must have 33 or 34 carloads of bitumen to do the Twelfth street work, and I do not want to start the work until we have on hand at least one-half of the amount necessary for the entire work."

"Now that we have been promised one carload a day, if it comes, the work can go ahead soon. The first of these will have to be used in the work of patching the streets, but if the promise holds good we will be in shape soon."

"We are now erecting an asphalt plant in our yard and this should be up inside of two or three weeks, then we can use that."

"What is the class of bitumen you are getting?" asked Mayor Mott. "It is not as good as it was formerly."

Mayor Mott—I am informed by other parties that the bitumen that is being taken out of the mines is not as good as it was in the past. Mr. McElroy said: "The people don't understand the reason why work is delayed on these streets. They are clamoring for better streets and we must have them. The people hold the administration and street department responsible, and the work must be done."

Mayor Mott asked Mr. Ransome how soon work on Twelfth street would begin and Ransome answered he would start it until he had material enough on hand to do at least half of it. He could use asphalt when the new plant was erected, and that would help, but the specifications would have to be changed.

Mayor Mott: "Go ahead with asphalt and we will see to the specifications. Can you start by the middle of May?"

Mr. Ransome: "We will start as soon as we have ten carloads of bitumen or asphalt. I think we can begin by the middle of May."

Mayor Mott: "All right; see that all repairs are made at once, then start the middle of May on Twelfth street. When it will take sixty days to do the work won't it?"

Ransome: "Yes, about that time."

Mayor Mott: "Go ahead and get the work done by the Fourth of July, as I want to make the procession down the street on that day."

Mr. Ransome: "You will have it then all right; we will finish the work by that time."

REMOVE WIRES. The Board of Public Works granted a petition of the Western Union to remove its present wires from 1062 Broadway to Seventh and place them in an underground conduit, and also to reconstruct its line of poles between First and Seventh streets.

On inquiry by Mayor Mott regarding the intentions of the Postal Company, it was stated that this company intends conducting all its lines from West Oakland to Broadway, coming to the business center along Eighth street.

OBSTRUCTS STREET. J. W. Reddick, a house mover, had before the board or public works for obstructing a street for a whole day, explained the circumstance by saying that half his crew got drunk and the half was not able to make greater progress. Reddick promised that in the future he would use every endeavor to keep a house moving after he had started it. He was allowed to go with a warning that he must not obstruct a street again.

Louis E. Spear of the Pacific Steel

and Wire Company explained to the board of public works this morning relative to the wire gates across Twelfth street and avenue at the works. He said they were placed there to keep people out of their works and were closed at night. They were on rollers and easily opened in case of fire. Twenty-second avenue at this point could not be used by any body else than the Wire Company and cotton mills that operated their plant on the opposite side of the street from their works.

Mr. Spear agreed to enter into an agreement showing the company would never claim ownership to the street property by reason of fencing the street.

ELECTRIC LIGHT. At the board of public works this morning the petition of G. G. Williams and twenty others for an electric light on the west side of Wakefield avenue between Twenty-fifth and Twenty-seventh streets was filed on recommendation of City Electrician Babcock. He thought it too near the city line.

The application of the Hotel Athens for an addition to be used as a machine was referred to Building Inspector Towle.

NEW BUILDING. George W. McElroy asked permission to erect a corrugated iron building as an annex to the Junetta stables on Seventeenth street, behind another story on the stables. This would make the building extend through from Seventeenth to Eighteenth streets, the entire structure to be used as a garage.

Mayor Mott and Commissioner McElroy were not in favor of permitting anything but a brick or concrete building with concrete floor for garage purposes and refused McElroy's request.

PIEDMONT DISTRICT. Jay W. Blaine has a machine that lays pipe up to 8-inch diameter without tearing up the streets and was given permission to give a demonstration Saturday by the Board of Public Works. The demonstration will be given at the corner of Fourteenth and Harrison streets. C. A. Huffmaster of San Leandro is the inventor of the machine.

The members of the board disagreed with Hugo Abrahamson, who petitioned to have six trees cut down on Ninth street, between Myrtle and Filbert.

PORTER TOOK POSITION. "When a man is absent from his place among the Grand Trustees at the Grand Parlor, they usually fill his place. That is why Warren R. Porter was appointed to my position. I think if the Grand Parlor should attempt to compel a subordinate prior to expel a member under the circumstances, that the Grand Parlor would be expelled by the court. The Native Sons is a beneficial order, and the members join it for the sake of sick and death benefits and the court, I think, would prevent them from denying to members the rights for which they paid."

"Would not the proposed amendment to the constitution, which has been introduced to the Grand Parlor, make expulsion possible?" asked the correspondent.

"I think not," replied Ruef. "That amendment would not be retroactive, and affect your case, would it?"

could ever love her. Mrs. Gompertz was unaware that the woman who had usurped her in her husband's affections was in the eyes of the law still married, and that her husband was therefore committing double adultery. Had she, it is doubtful if she would have gone peacefully home without first seeing him punished for his faithlessness. Before leaving, however, she stated that she would sue for divorce from him on the grounds of desertion.

Gompertz' search to find his missing child and her mother was extremely clever. First, he traced her from the place to the other until by the aid of the article in THE TRIBUNE, he found her living with Effebach in a rooming house on Broadway in Oakland.

## GOVERNOR WILL MAKE ADDRESS

To Talk at Chamber of Commerce Banquet—Plans Are About Completed.

Governor Gillette will speak in Oakland next Wednesday evening at the annual banquet of the Chamber of Commerce. This will be the first opportunity residents of this section will have of hearing the chief executive of the State since his occupancy of the gubernatorial chair.

The dozen other speakers are all well known and that the guests at the banquet may reach their homes at a reasonable hour the committee have arranged a regular schedule time card. The guests who already number many hundreds will begin to be seated at seven o'clock and promptly at 7:16 the banquet will be served.

As this is a business men's banquet and served at the usual dinner time, the committee suggest that all wear business suits, going direct from their places of business to Idora Park. A brass band will furnish music from 6 to 7 o'clock, followed by the string orchestra during the banquet.

Interest in the musical program eclipses anything of the kind ever heretofore attempted on this side of San Francisco bay.

## WIDOW OBTAINS ENTIRE ESTATE

Late Husband's Will Declared to Be Invalid and Therefore Void.

JEFFERSONVILLE, Ind., April 24.—Judge H. S. Montgomery yesterday declared the will of Professor W. W. Borden, deceased, to be invalid.

The widow thus becomes the sole beneficiary of an estate valued at about \$1,000,000. Prof. Borden bequeathed to the people of Indiana, his museum, containing specimens gathered from all parts of the world.

When Mrs. Borden sued for a construction of the will none of the trustees responded. They gave as a reason that they did not desire to undertake the execution of the wishes of Professor Borden, inasmuch as the provision for maintenance had not been made clear.

## ALCOHOL FROM SAWDUST.

Samples of alcohol made from sawdust have been sent to the Department of Agriculture from one of the big sawmills where the work is being done on a commercial scale, that is to say, a distilling plant has been installed which is turning out several barrels of alcohol daily, though no figures are available as to the actual cost of manufacture compared with wood alcohol or that from grain.

The interesting point about the sawdust alcohol is that it is not a wood alcohol, having none of the properties of that fluid but is an ethyl alcohol that cannot be told from that made from grain. The difference is that the sawdust alcohol is made after the sawdust has been treated with an acid, transforming it into dextrose, and is then distilled in the regular way. If the work can be done at a profit, and the indications from the work of the company point to this being a fact, it will not only make a valuable by-product of the sawdust that has heretofore been an intolerable nuisance to the sawmills, but it will open up a way to make alcohol profitably from straw, cane, cornstalks and almost any other vegetable refuse.

## IGNORANCE.

Philip had set his heart on a bicycle last Christmas and after saving his money for his father and mother and daily letters to Santa Claus, he added a petition to his prayers, asking the Lord to take a hand in the matter and see that the bicycle was forthcoming. His parents were seriously perplexed, for he was only a mere child and not old enough to ride a bicycle, even if one of his size could be found. They hoped, however, that he really meant a velocipede, as all of his playmates had velocipedes which they called bicycles.

They bought the velocipede, but awaited Christmas morning with some misgivings, fearing the child would be bitterly disappointed. What was their astonishment when Philip discovered his gifts to be a burst of merry laughter.

"What are you laughing at, Philip?" asked his father.

"Oh, father," exclaimed the youngster, "I haven't got the best joke on the Lord! He don't know the difference 'tween a bicycle and a 'velocipede!'"

"What are you laughing at, Philip?" asked his father.

## MANY ENTERING PROVERB HUNT

Interest Increasing in Contest Being Carried on By The Tribune.

This is the eighteenth day of the TRIBUNE Proverb Hunt and the interest that was evinced from the start is steadily increasing. Now is the time for those to come in who have not already entered this contest, and as there are still thirty-two days there is the best kind of a chance to obtain one of the valuable prizes offered.

Don't let an issue of the TRIBUNE get away from you without clipping the coupon that appears daily, as even one may win you a prize when the awards are made. Another thing, don't send in any of your answers until the close of the contest. Hold them all until that time.

"What proverb or quotation does the picture best represent?" is the question that is asked every afternoon in the TRIBUNE. Find the answer, and if enough are correct there is a chance to win a prize.

This isn't mere child's play. It is an interesting study and one that is an education. In this connection the local public library is being used freely by those who have entered the contest and many books of proverbs and quotations have been obtained by the more enthusiastic ones at the stores having such publications on sale.

Conditions of the contest should be read carefully to make sure that the question is not already answered by the rules. Contestants may submit as many answers to questions as they wish, but each must be on a separate blank.

The first prize will go to the person answering all, or nearest all, of the fifty proverbs, correctly. The person answering the second largest number correctly, or nearest so, will receive the second prize, etc.

Now is the time to get busy. As has already been said, thirty-two days still remain and that is ample time in which to get at the top of the list. Look at the list of prizes in today's TRIBUNE, and if you have not already become interested you may decide to enter the hunt.

## RAISES WAGES OF EMPLOYEES

Rhode Island Street Railway Co. Voluntarily Increases Pay of Men Ten Per Cent.

PROVIDENCE, R. I., April 24.—Announcements of a 10 per cent increase in wages, on a basis of a ten-hour day, to go into effect next Sunday, was made today by the management of the Rhode Island company, the corporation that practically operates all of the street railway lines in the State. It affects over 1,000 men. General Manager Foster said: "The raise is granted the men without any request having been made by them and would indicate that the railroad management is able to deal more liberally with its employees when no real basis exists, for the reason that it is not obliged to hold back something at all times as a matter of trade."

## Why do musicians prefer and use the grand piano?

—not because of its shape. That could add nothing to their art or fame but because of the delicately responsive quality of the grand action—and because of size, which provides by string length for power—the smallest space in which these two essentials of the grand can be produced is measured by the case of the Steinway Miniature Grand—5 feet 10 inches length. As the size of the case is reduced below this dimension, the desirable qualities of the piano diminish and just so much nearer does it approach the class of the ordinary upright and approximate uselessness of a grand piano.

—if you want the musical qualities of the artist's grand in the smallest possible space get a Steinway Miniature Grand, the smallest real grand. If your space is limited, the Steinway Vertegrand will meet all your requirements. In both responsiveness and volume it is superior to the grands of any other maker, while it occupies less space than the smallest of the tiny "grands," and is made of the same materials as the Steinway Concert Piano and under the personal direction of eight members of the Steinway family. Price, \$525.

## The Water Situation.

The People's Water Company will be wise if it adheres to the policy outlined by the Council in Committee of the Whole, and acquiesced in by Mr. Titus, the general manager, in regard to water rates. A reduction of ten per cent in charges to consumers in the present instance is initiatory to further reductions in the future, till the rates reach the lowest level compatible with an efficient service and maintaining an abundance of wholesome water for all needs. This policy furnishes a basis of accord between the public and the water company that will discourage angry political agitation and costly litigation in future.

It is as important to the public as it is to the water corporation that peace should prevail at this time between the water consumers and their purveyor. The extraordinary growth of Oakland and its suburbs makes an immediate augmentation of the supply and an extensive enlargement of the distributing system necessary. Agitation and litigation will inevitably retard and delay extensions, besides making them more costly, and hence should be avoided if possible. As long as the company endeavors in good faith to meet the public demands and be reasonable in charges, it should be free from harassment and left unhampered to develop and improve the water system. It should not be treated in a hostile spirit because it is a money-making enterprise. Everybody is in business to make money, and capital invested in waterworks is entitled to as much consideration as capital invested in anything else, and has as much claim to a fair profit.

However, the People's Water Company is in a much better position to make concessions to its patrons than was its predecessor a few years ago. The territory it supplies has more than doubled in population during the past six years, and the gross revenue from the sale of water is nearly three times today what it was in the year 1900, when the litigation in regard to water rates was inaugurated. The community, generally speaking, is vastly more prosperous. Wages and prices all round have gone up, which of itself operates to make water less expensive and the payment of bills less onerous. When the price of one commodity remains stationary while the price of everything else advances the effect on the exceptional commodity is to make it cheaper.

In addition to running with favorable conditions in other respects, the new water company has the good will of the community, which is tired of litigation and contention, and too busy to be interested in the clamor of demagogues and spoilsmen. If it adheres, as we said before, to the policy of being progressive in improvements, considerate in treatment of patrons and moderate in charges it can count on a continuance of public favor and an assured prosperity in future.

If the President had displayed the same sound judgment in writing to Representative Sherman about Harriman that he did in writing to Honore Jackson about his reference to Moyer and Haywood, there would never have been any occasion to write to Jackson.

A San Francisco policeman, arrested for levying blackmail on a shady resort, says the proprietor offered to "slip" him money occasionally, but he indignantly refused the offer. Whereupon the proprietor reported him to the district attorney as a blackmailer. This is about the most diaphanous excuse ever presented. The policeman ought to be convicted on his own statement. When he says he was accused of blackmail because he spurned money offered him he tells an incredible story which stamps him as a dull liar as well as a predatory knave. His statement is evidently what the police call the "get back" of a detected rogue.

## Roosevelt's Moyer-Heywood Letter.

Theodore Roosevelt never struck a bolder note or spoke in clearer tones than in his letter to the Cook County Moyer-Haywood Conference. His terse definition of good citizenship and his remarks concerning the obligations it imposes upon all alike—the millionaire as well as the laborer—make good reading. His demand that justice, even-handed and unadulterated, shall prevail, no matter whether it is rich corporations or labor unions that are involved, is a ringing challenge to covert intimidation. It is courageous and correct, and is couched in terms as free from ambiguity as they are from subterfuge and evasion. The President faced the issue presented to him squarely, and in doing so has said a number of wholesome and timely things in an impressive way.

But it is unfortunate that the President's impetuosity and lack of forethought in dashing off letters should have involved him in this Moyer-Haywood controversy. It was his own imprudence that gave the so-called Moyer-Haywood Conference, which is merely the name of a Socialist propaganda, a pretext for taking him to task for his references to Moyer, Haywood and Pettibone in his letter to Representative James S. Sherman of New York.

The comparison of Moyer and Haywood to Harriman was uncalled for. It was gratuitously made in a petulant, irritable letter, somewhat violent in tone, at a time that gave it an air of impropriety. While the letter was not written for publication, it was given out to the press while Moyer, Haywood and Pettibone are on trial for their lives. Whether the President intended it or not, his condemnation of these men naturally prejudiced their case in the eyes of a great many citizens. It may not have affected the jury or public sentiment in Idaho, but it undoubtedly affected public sentiment elsewhere.

The President's rebuke to the agitators who are denouncing the prosecution of Moyer, Haywood and Pettibone as a conspiracy only brings out more sharply the impolicy if not actual impropriety of his own utterances. The blame he visits on them instead of lifting it from his own shoulders causes it to bear harder. What Mr. Roosevelt has written in his own defense is eternally right, but what he wrote to Hon. James S. Sherman was wrong—particularly so, as a President is supposed to weigh his words and speak with judicial temper and gravity.

In referring to Moyer et al. in the Sherman letter, the President was making a fling at E. H. Harriman. The railroad magnate was compared to the accused labor leaders to bring him into ignominy and contempt. While the comparison was intended to be offensive only to Harriman, it naturally presented Moyer and Haywood to the public as bad, dangerous men. For the President to say such a thing of men on trial for their lives was to say the least in bad taste and hardly fair.

What Harriman thinks of the matter is another story, relating to the reward he received for acting as paymaster of the New York campaign in 1904.

## THE "BLACK HAND" MUST GO.

## The Kettle Calls Black Pot.

Running motor cars at a dangerous rate of speed within the city limits (or without, for that matter), cannot be excused by saying the street cars frequently exceed the legal speed limit. While we have no defense to make for running cars at an excessive rate of speed, it is to be noted that the fast runs are usually in the most thinly inhabited districts at hours when there is very little traffic on the streets traversed. On the other hand, autoists run their cars furiously at all hours of the day in the most crowded thoroughfares, treating pedestrians as if they had no rights that a chauffeur is bound to respect. Let one stand for an hour at any afternoon at the corner of Fourteenth and Broadway and he will be struck by the reckless contempt for pedestrians habitually shown by motorists. They will dash through crowds of women and children waiting to get on street cars regardless of consequences. Their actions say as plainly as language can, "Get out of the way or be run over." A slight detour would enable them to avoid the inconvenience, confusion and consternation they cause, but evidently take pleasure in making people jump for their lives. While it is reprehensible for the Traction Company to ignore the law and run cars at a dangerous rate of speed, it is not a whit less reprehensible for autoists to do even worse with far less excuse. Railing at the street car will not cause the public to take a more lenient view of the conduct of a certain class of motorists who take a delight in dashing furiously through crowded thoroughfares for no particular reason whatever but to show how fast they can go.

The police have discovered that Smith, the murderer of John Marcovich, is a convict of many crimes and aliases in other parts of the country. By and by they will discover that he has not been arrested for his last murder. A great deal of energy has been expended in finding out things about Smith when the problem was to find Smith.

## WANTS THE NAME CHANGED.

EDITOR TRIBUNE: A number of suggestions have been made in regard to changing the names of Oakland, Alameda and Berkeley into one universal name, but that seems to me without an object, when they are unwilling to consolidate into one government. When that is brought about it seems to me it will be a fit time to change their names into one. In the meantime, however, Oakland might assume another name to become her advanced age and new conditions. When Oakland was first named no doubt it was describing its chief characteristic—the Land of Oaks. We can still see a few of the old veterans standing round here and there like sentinels—for instance on the block bounded by Twelfth and Thirteenth streets, Oak and Fallon streets, but the great army of them have fallen before the victorious march of civic life and prosperity. In their places we find palatial mansions, happy homes, spacious grounds, adorned with shrubs and flowers—also many business structures, fine and costly, which their value would almost cover the ground with gold. But the chief reason why Oakland should change her name is to memorialize the events of the last twelve months. Damaged but little by the earthquake, but in consequence thereof the high tide of prosperity set into Oakland, the bank vaults were filled to overflowing with gold, literally enough to pave its streets with gold like unto that celestial city we read of—what then would be more appropriate than to call it the Golden City?

How that name would strike the fancy of all those who read about California or look this way for homes or investment and if by chance ships enter Golden Gate in the evening time and see Oakland flooded in the glory of the setting sun they would say, Surely we have found the Golden City.

GEORGE A. RIES.

## NAME ONLY OF SECONDARY IMPORTANCE.

EDITOR TRIBUNE: I am in favor of consolidation by all means and will work for it. The question of a name is of minor importance and will be adjusted to suit all concerned at the proper time—consolidation first, name afterwards.

Respectfully yours, CHAS. Y. WILMARTH.  
Oakland, Cal., April 19, 1907.

## The Sacrifice

She gave the curving scarlet of her lips,  
A ruby field to sow his kisses in;  
She gave her eyes to watch the starless nights  
And ebon shadows for a sight of him.

She gave her voice and rivaled with the larks  
To sing the silver morning into view;  
And then she gave her tears, because he said  
There was no freshness in the glittering dew.

And having given all there was to give,  
She broke her heart because her store was done.  
And died, not knowing that of all her gifts  
The man she loved had never cared for one.

—The Woman.

## THIS WOMAN IS THE PRESIDENT OF A BANK IN NEW ENGLAND And She Knows How to Pay Dividends

The only woman bank president of New England is Mrs. Elizabeth Burleigh Davidson of New York Harbor, Me. She is the head of the York county national bank. The bank was organized in 1893 by her husband, and at that time Mrs. Davidson was much interested in her home duties. She had six lively children and little time to think of banking or outside work. But in 1901 her husband died and Vice-President Walker was made president. To represent her husband's interests in the bank Mrs. Davidson succeeded Mr.

Walker as vice-president. Eventually she became president, on the death of Mr. Walker, and has held the position two years with success. "At first I thought I could not perform the duties of the office," she said the other day, "but my duty to my children and the property seemed to call me to it. Now I find a great pleasure in the work." The last two years, with a capital stock of \$60,000, the bank has paid dividends of 4 per cent, and Mrs. Davidson has the respect and confidence of every masculine banker in the State.

## LION TAMER IS ARRESTED FOR HUGGING MISS RYAN, MIND READER Now the Tale of Love Will Be Told in Court

SAN FRANCISCO, April 24.—Because the lion tamer at the Sells-Floto show embraced her against her will Miss Mamie Ryan, a mind reader connected with the same show, yesterday had Frank Hall in Judge Shortall's court on a charge of battery.

The fair seeress averred that Hall had continually for the past week annoyed her with his attentions. "Why, he actually threw his arms around me and hugged me," she said. The witness heaved a sigh and added that such a thing had never happened to her before, at least not in the same way.

Questioned as to her reasons for re-

pulsing the advances of the lion tamer Miss Ryan stated that through her peculiar faculty of mind reading she could see that such an alliance as Hall advocated brooded evil for her.

Attorney Robert Duke, the wit of the District Attorney's office, said: "Miss Ryan, if you are a mind reader, can you tell what the Judge's decision in this case will be?"

"I certainly can if he crosses my palm with silver," replied the lady. Judge Shortall refused to part with any change, saying that he did not believe in mind reading and it was against his custom to loosen his grip upon the fleeting dollar. The case was continued.

## HER MAJESTY, QUEEN OF ENGLAND, SAID TO HAVE BUT ONE FRIEND Short Stories That Will Interest Women

Miss Latona Burns has been appointed by the Alabama Board of Education to organize a concerted movement for the improvement of the public schools of the State. She will be sent into every city and town in Alabama to form school improvement associations and to try to awaken an active interest in public education in the public officials, and in mothers and fathers as well.

Princess Marie of Roumania, wife of the crown prince of Roumania, has a most delightful retreat. It is a nest-house built high up among the branches of tall fir trees, and in it the princess passed the greater part of last summer. The nest is a miniature cottage built for her by the king of Roumania at Sinalia. A small staircase gives access to it. Two rooms and a kitchen comprise the nest, and they are furnished in a simple and elegant way.

Despite the affection with which she is regarded by the people, Queen Alexandra has no circle of friends. Miss Knollys, who never leaves her, day or night, has been described as "the queen's only friend in England." Her majesty has many acquaintances, but no friends. Most queen consorts have a little coterie of their own and usually have a direct influence upon a certain section of society. But Queen Alex-

andra, it is said, exerts no influence whatever.

Maj. Hume in his "Queens of Spain" says that Isabella I authorized the execution by burning in Seville alone of 700 people and condemned to life imprisonment and the confiscation of all their property, on less than 5000 marks. Shortly after her death the mayor of her own city of Medina del Campo declared that the soul of Isabel had gone to hell for her cruel oppression of her subjects and that all the people around Valladolid and Medina, where she was best known, were of the same opinion.

When questioned as to the secret of the extraordinary attention her two boys invariably show her, one mother gave this explanation: "It began when the boys were very little chaps, when I tried to show them that these little attentions were necessary to my happiness. As they grew older, I never failed to express my appreciation of the little things they did for me—if it was a tiny shell from the beach, or a smooth stone from the road, or a field flower, I was always delighted with it, and so the giving has become a habit. It means a great deal to me—and I have no doubt some woman will thank me in the future. I have always felt," she added, "that if my boys failed in their attitude to the women who came into their lives, it must not be my fault, so I am beginning early to be a good mother-in-law."

## CUSTOM THAT MAKES THE WIFE ASSUME THE NAME OF HUSBAND It Originated in the Old Days of Rome

The custom which makes it proper for the wife to assume the name of her husband at marriage is involved in much obscurity. A recent authority advances the opinion that it originated from a Roman custom and became common after the Roman occupation of England. Thus Julia and Octavia married to Pompey and Cicero, were called by the Romans Julia of Pompey and Octavia of Cicero, and in later times the married women of most European countries signed their names in the same way, but omitted the "of."

In spite of this theory it is a fact that

as late as the sixteenth and the beginning of the seventeenth century a Catherine Parr signed her name without any change, though she had been twice married. We also hear of Lady Jane Grey, not Dudley, and Arabella Stuart, not Seymour, etc. Some think that the custom originated with the scriptural idea that the husband and wife are one. This was the rule of law as far back as 1268 and it was decided in the case of Bon vs. Smith in the reign of Elizabeth that a woman by marriage loses her former name and legally receives the name of her husband.

## SHE WHOSE ARM IS BEST

MISS LOUISE WITTVOR OF 1601 OXFORD STREET, BERKELEY.

## THE SILKEN HOSE TO BE PRIZE FOR HER

"The picture of that French demoiselle in THE TRIBUNE today (Monday) was a beautiful example of exquisite pose," writes an Oakland matron residing on upper Jackson street. "For sure, I liked subject's attitude very much—it was real cute. But that word 'demoiselle' has a strange look and an odd sound. As I haven't a dictionary handy, will you please explain."

Phidias will say right here that "demoiselle" is good French for girl, just as is "mademoiselle" the Gallic for young lady—in German, fraulein. That likeness by Belle-Oudry, represented a French lassie, aged twelve years.

"Some days ago I sat for a photo at the studio of Shaw & Shaw," declares an Alameda girl, "and I want to know the reason you have not published it. A lot of my friends are wondering, too. You will understand, I told them that I was going to try to win that first prize." Phidias will make all clear by stating that said portrait is to appear in a little while.

Reader, if you feel like volunteering for this tourney, send your address by mail to "Phidias, Editorial Department, OAKLAND TRIBUNE." For the best shaped arm (bared to shoulder) the committee will award one dozen pairs of silk hosiery—45¢ a pair; and for nicest pose, the winner will get a box of elegant gloves. Free Shaw & Shaw photo order.

## Is Companion of Her Sons

A busy woman once said that she never knew how much she could accomplish until she became the companion of her young sons, sharing their sports and limiting her own working hours to theirs. Today they are young men and she looks like their sister. There are other young mothers of grown men and they are rather formidable rivals to younger women. The sons unconsciously make comparisons, generally in favor of mother. It is beautiful to "grow up" in this fashion with one's children, says a writer; to keep pace with them in new studies and new thoughts, something like a second youth. We are so quick to put away youthful things unless we have some such incentive to hold them.

## Women Created Cleaner Office

The Dutch housewives of old New York, ever noted for their housekeeping qualities, created the agitation which resulted in the appointment of the first public street cleaner in New York, in 1822. He was Laurens Van der Spighe, a baker. His daughter married Rip Van Dam, who afterward became governor of New York, an illustration of the democracy of that day.

Mr. Goldthwaite, who is the son of Dr. S. V. Goldthwaite of Boston, started in and worked his way up the perilous ladder of the law, until in the conservative old Massachusetts capital he has made a reputation, as a lawyer, and is also the author of a number of judicial works of importance to the legal profession.

Last year Miss Yaw returned home after a triumphal tour through the countries of Europe, where she received ovations in all the capitals, and sang at Monte Carlo with Hammerstein's great tenor, Bondi, and also with Caruso, with which honor none greater has been bestowed upon an American girl. She then made a tour through the United States, and her success has been phenomenal, indeed so much so that she has been obliged to keep on touring to satisfy the demand. She is exceptionally beautiful and is endowed with an operatic voice, wonderful in its ability to climb to the vocal scale, her voice having four octaves. Lucrecia Adjurale sang the highest F in the Magic Flute and there is a record of an Italian singer, Lucrecia Adjurale, who, in 1771, sang from G below the treble staff to G on the sixth space above. Catalani had a similar range. Miss Yaw exceeds the Adjurale record by three notes, singing from G two lines below the staff to E on the seventh space above.

## WEDDING OF ELLEN BEACH YAW WAS THE OUTCOME OF ROMANCE

### How the Noted Singer Happened to Wed

LOS ANGELES, April 24.—California's treasured nightingale, beautiful Miss Ellen Beach Yaw, singer of international reputation, and who has achieved honors abroad seldom accorded an American, was secretly married in Boston several days ago to Vera Goldthwaite, a brilliant young lawyer of that city. The couple are now on their way to this city, expecting to arrive here Friday evening. Los Angeles friends will be surprised by the news of the marriage of their favorite singer, "Lark Ellen," whom they have come to regard rather as one of their possessions. The wedding came even as a surprise to her immediate family, for though the two had been friends for a number of years, so early a consummation of the love affair had not been expected.

J. Yaw, mother of the bride, at her Covina home, brought the first definite news of the wedding, which occurred in the drawing-room of the Hotel Somerset. The wedding is the outcome of a romance which began in Arizona. Ellen Beach Yaw was detained in that Territory by a washout which had stopped traffic on the Southern Pacific Railroad. A group of cowboys gathered around the stranded train. In the group was young Goldthwaite, who at that time lived on a ranch. He and the singer became acquainted. That was seven years ago, before Miss Yaw left for Europe to study and to sing her way into the hearts of the music lovers of the capitals there. She wished to continue her musical career at that time, and still intends doing so. She had always declared she

## COLLINS—HAM.

The marriage of Miss Pauline Collins and the Rev. Richard K. Ham took place last evening at the home of the bride's parents, Mr. and Mrs. George H. Collins, on Vernon street. Over one hundred friends witnessed the pretty ceremony, the Rev. Chas. Brown of the First Congregational Church officiating. The parlor was decorated in pink and green and a marriage bower of pink roses and tulle with asparagus fern and tall palms was arranged in heart outline effect. In the dining-room yellow daffodils, jonquils and greens formed an effective decoration. The hall was banked with ferns and potted plants and everywhere hanging baskets filled with trailing vines and ferns added to the picturesque effect. The bride, who was becomingly gowned in white messaline silk, made an entraine, with long tulle veil and a shower of lilies of the valley, had but one attendant, Miss George Barker of Berkeley. Miss Barker was prettily gowned in soft green silk, with an armful of pink carnations as the bridesmaid's bouquet. Ray Ham attended his brother.

The bride has always been a favorite in cultured circles and has had every advantage of education and travel. She is also a talented musician. Mr. Ham has charge of the Congregational Church at Grass Valley, and it is there that he and his bride will establish their home on their return from a honeymoon.

At half past four a grand "battle of flowers" will take place directly in front of the house. Donations of flowers for this affair are earnestly solicited as the more plentiful the blossoms the more beautiful the sight. The donations should be sent to Arbor Villa either Friday afternoon or Saturday morning.

JEFFERSON CITY, Mo., April 24.—Attorney General Hadley today filed in the Supreme Court an amended information in the ouster suit recently filed against the Missouri Pacific and Wabash railroads, alleging stock was held by the Goulds and sold to the Missouri Pacific giving it control of the Wabash railroad. The ouster suit was filed upon the allegations that the Missouri Pacific and Wabash are parallel and competing lines and are under one ownership and control.

Attorneys for the defendant companies will, it is believed, agree with the Attorney General to submit the case on an agreed statement of facts.

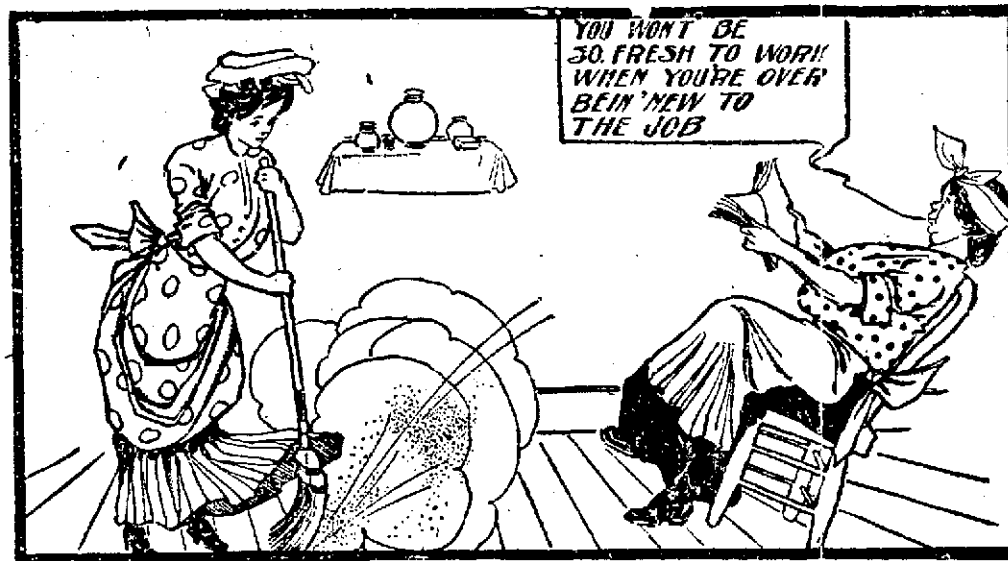

## RETURN OF THE PIGEON.

Stories of the "return" of the passenger pigeon have been printed of late in many parts of the country and now enjoy, we believe, the credence of competent ornithologists. A letter from Minnesota records that "Woodmen report hundreds of them along the Clocquet river, in St. Louis county, and in colonies have also appeared in the Wisconsin woods, north of Superior. Last spring a flock was seen in Presque Isle park at Marquette, Mich., by the caretaker, who, when a young man, had killed many of the birds, and he recognized the years of recuperation." In South America, it is suggested, but did anybody see them there? The Nature study movement has produced some remarkable results in the reappearance of species once all but destroyed. The beaver and the buffalo are gaining in numbers. Deer, under protection, grow so abundant they spoil the farmers' crops. Who knows but that the great auk and the salvador duck may presently reappear themselves?—Indiana Farmer.

# INHERITED BLOOD TROUBLES

A THOROUGH CLEANSING OF THE BLOOD THE ONLY CURE.

Pure, rich blood, free from all inherited taints or disease, contains everything necessary for the proper growth and development of the body, and for nourishing and sustaining the system with healthy vigor and strength to keep it free from disorder and disease.

"The blood is the life," and no richer heritage can be handed down to posterity than a pure blood supply. As good blood is a blessing, so in like proportion is impure or diseased blood a handicap and a misfortune, for not only is life's struggle harder, but existence becomes a burden when some inherited blood taint is continually cropping out.

Through the blood disease germs are carried from one generation to another, parents transmit them to their children, and so it goes on down the family line, spreading disease and suffering until the taint is removed from the blood. Scrofulous affections are the most usual form in which inherited blood troubles are manifested. The blood, being tainted with scrofulous and tuberculous matter, cannot supply the needed nourishment and strength to the body, and we see the effects shown in various ways. Such persons are usually pale and anaemic, their bodies frail and frequently not fully developed, and they are often afflicted with skin diseases, weak eyes, catarrhal affections, sores and ulcers, etc., and where the blood is especially vitiated the bones are affected and white swelling or hip disease makes life a lingering misery.

"Like begets like" is just as true of the physical kingdom as it is of the vegetable world, and so sure as any blood disease exists with the parent, it will be handed down to the child. This is as true of Catarrh, Rheumatism and other blood disorders as it is of Scrofula. What is commonly known as "growing pains" with children is usually the inherited taint of Rheumatism, and the little innocents are allowed to suffer because the parents do not realize that the seeds of this powerful disease are being manifested in childhood, and will in later life become a serious and dangerous trouble.

Inherited blood troubles do not always manifest themselves in childhood because of the care and attention with which the little ones are guarded in the interest of health; but when middle life is reached or passed, and the machinery of life has begun to wear out, the trouble can no longer be held in check, and declining years are made miserable because of disease.

There is but one cure for inherited blood troubles, and that is a thorough cleansing of the blood, and no medicine equals S. S. S. for this purpose. It goes down to the very root of the trouble and removes every trace of impurity or pollution, and cures blood diseases of every character. S. S. S. not only cleanses and purifies the blood, but supplies it with the rich, healthful properties it needs, and by its fine tonic effects builds up the entire system. S. S. S. is the only blood medicine on the market that does not contain a mineral ingredient in some form. It is made entirely of healing, cleansing roots, herbs and barks, and is the one medicine that can be

given to children or persons of any age with absolute safety. Those who have inherited blood taints can rely on S. S. S. as a cure, and so thoroughly does it remove the cause that no signs are ever seen of it in later life. Whether your inherited trouble be Scrofulous, Rheumatic, Catarrhal or some other form of disease S. S. S. is the right remedy because it is a perfect blood purifier and tonic. Book on the blood and any medical advice desired furnished free to all who write.

## LIVELY TOPICS TAKEN UP BY MERCHANTS' EXCHANGE

### Railroad and Street Car Questions Are Revived—Consolidation Also Is Discussed.

Two lively subjects of discussion engaged the attention of the Merchants' Exchange members at a well attended meeting last evening—the Southern Pacific railroad and the Oakland Traction Company.

Each had its sharp critics and also its warm partisans and in the end, committees were instructed to look into the matters complained of and to report accurately as to the facts the Exchange then to come to a decision.

#### OLD QUESTION ASKED.

Does the Southern Pacific discriminate against Oakland? This question is an old one before the Exchange and it was revived by the report of a committee read by Secretary Walker, in part as follows:

We have conferred with the proper officials of the Southern Pacific Company and were treated with courtesy and due consideration.

We are assured by him that no discrimination of any kind is practiced (permitted in freight rates from the two localities to interior points or from interior points toward Oakland and San Francisco).

In the nature of things and from practical causes certain localities will receive goods more promptly from San Francisco than from Oakland. In like manner many localities will receive much quicker from Oakland than from San Francisco and from the information which the committee possesses we believe that Oakland is much more favorably situated for interior business than is San Francisco.

We are assured by representatives of the Southern Pacific Company that any complaint will be promptly investigated and if possible remedied immediately.

We find no evidence of discrimination against Oakland and believe that proper steps are being made to meet the present freight situation.

#### PRESIDENT JONAS HEARD

Former President A. Jonas followed in a full report in which he stated that while rates out of Oakland are the same as those out of San Francisco freight dispatched from this point to an interior point will reach its destination from twenty-four to forty-eight hours sooner than if the shipment originated in San Francisco. Likewise San Francisco has an advantage in respect to coast and southern points.

George Hoffman brought up the question of passenger discrimination as he felt that he could and would prove it in one instance at least the Southern Pacific refused to sell a ticket on to check baggage to Oakland and he believed it was a general custom. This was disputed by several members but in the end it appeared that residents of Oakland, Alameda and Berkeley are out to great inconvenience.

If desiring to travel by the faster trains of the coast route being compelled to be in San Francisco at 7 a. m. if departing and arriving there at a late hour at night on their return.

#### IMPROVEMENT SUGGESTED.

It was suggested that better service between Oakland and San Jose would improve the situation and a committee consisting of Messrs. Brown, Brainerd, Gier and Walker was named to urge the company to make better connections.

#### WANTS GATES ON CARS

E. A. Young called the attention of the meeting to the large number of deaths on Broadway due to the narrow space between the street cars, and he demanded that the association take steps to have the spaces between the tracks widened or gates put on all cars running along the street. Mr. Young favored a court injunction if necessary to prevent what he termed these killings in cold blood.

Mr. Jones, while admitting that destruction of life must not continue, deprecated harsh measures and advised that a conference be brought about between the city authorities and the traction company, by which method he believed better results might be secured.

#### CAR CONGESTION.

The continual congestion of cars between Seventh and Ninth streets was referred to by Fred Sinclair. Finally the whole question was turned over to E. A. Young, A. Jonas and Theo. Gier, appointed as a committee.

#### CONSOLIDATION PROJECT

The new project to unite Oakland, Berkeley and Alameda into a city and county government to be known as Berkeley did not thrill the members. Inasmuch as the Exchange has been working for consolidation for ten years without success it voted itself willing to let the Berkeleyites take up the burden. As Mr. Jones expressed it: "If there is an organization in Berkeley which thinks that a banquet and cigar smoke will unite these three towns let them try it. We will wait while they thus work."

#### INSURANCE SUBJECT.

Secretary Walker was instructed to report upon the advisability of forming a mutual fire insurance company under a lately enacted law and to invite the National Switchmen's Union and the State Master Plumbers Association to hold their next annual meetings in Oakland.

#### NEW MEMBERS

The membership was increased by the names of Bots, Cramer & Co. the Western Heavy Hardware Co. the Golden Gate Cracker Co. and L. A. Beare. The secretary was also requested to ascertain when a salt water plant is to be installed by the city.

## TO ARBITRATE ALL TROUBLES

### Lumbermen and Railroads Agree to Have Complaints Investigated by Board.

MINNEAPOLIS, Minn., April 24.—A practical service car department has been organized by Secretary W. G. Hollis of the Northwestern Lumbermen's Association. The railroads agree that such cases as are presented to them by the department shall be acted on in good faith. There are 2500 members in the association, covering Minnesota, Iowa, North and South Dakota and that part of Nebraska tributary to the northern markets.

The plan has been approved by the traffic officials of the Rock Island (Frisco system), Illinois Central, Wisconsin Central, St. Paul, Chicago & North Western, Great Western, Burlington, Great Northern, Northern Pacific, Iowa Central, St. Louis Southwestern, Missouri, Kansas and Texas, Mobile and Ohio, Missouri Pacific, Wabash, Alton, Santa Fe, Southern Pacific and Kansas City Southern railroads.

## TRIES TO KEEP UP AGITATION

### Member of English Parliament Favors Fighting American Packing Houses.

LONDON, April 24.—There was an attempt in the House of Commons this afternoon to revivify the agitation against the American packing houses a subject which had passed into oblivion months ago and the Board of Trade rather disconcerted any recrudescence of the matter. It rose from a question of Sir William Bull, Conservative who suggested the necessity for protecting the meat trade of this country against the attacks of foreign trusts and the taking of steps to prevent meat "un" from being marketed here by representatives of the American meat packers.

Mr. Lloyd George, president of the Board of Trade, reminded Sir William that a bill had already been introduced by the president of the Local Government Board, Mr. Burns dealing with the importation and preparation of food and added:

I am not aware that there is any cause for further caution. He said, however, that he would watch the matter.

## FIGHTS RESULT OF BIG STRIKE

## BURN EFFECTS OF DEAD HERO

### Dispersing Clothes and Household Furniture of General George B. McClellan.

NEW YORK, April 24.—Personal effects of General George B. McClellan which have been stored in a warehouse in Orange N. J. since he died there in 1885 are being overhauled and within a few days will probably be dispersed. Army uniforms worn by him have been burned because they were moth-eaten. Boots weapons and various other articles are to be sent to army posts throughout the country. Some of the old household furniture is to be sent to Princeton where the general's only son, Major McClellan of New York, has a residence. General McClellan owned a handsome country seat in the Orange Mountains.

Backache is almost immediately relieved by using one of Carter's Smart Weeds and Belladonna Eucalyptus Plasters. Try one and be free from pain. Price 25 cents.

#### AUTHORITIES DENY THAT PLAGUE EXISTS

MADRID, April 24.—In reply to inquiries the government authorities today denied the statement that cases of plague exist at Cartagena.

## TURNED OVER TO RECEIVERS

### Captured Liquor Concerns in Kansas Will be Handed by Courts

TOPEKA, April 24.—The value of the property of the nine brewery companies and one wholesale whiskey concern located in Kansas, which are to be turned over to the receivers to be named by the Supreme Court, is estimated at \$250,000. This includes liquor bar fixtures and warehouses. Attorney General Jackson today declined to say in what manner the captured liquor would be disposed of. Whether it could be sold or would have to be destroyed was, he said, a question that he would not decide until the court had named receivers. The other property will be sold, he says, and the proceeds turned over to the State to defray the cost of the present suits.

## WILL STUDY IN THE FAR NORTH

### Party Including Berkeley Professor Seek to Obviate Seismic Troubles.

SEATTLE, Wash., April 24.—T. A. Jagger, Jr., professor of geology at the Massachusetts Institute of Technology is in this city en route to Alaska where he will lead a party of eminent scientists who will study seismic and volcanic actions in the Aleutian Islands. Their studies will have as an underlying purpose the discovery of a means whereby the present trouble experienced in engineering where seismic disturbances are numerous will be obviated.

The party will take with them a number of powerful apparatuses and a large camera. In the Aleutian Islands fifty-nine volcanoes have been reported and one of them, near Dutch Harbor was reported active last March. Among those in the party are Professor H. V. Gommers of the University of California, and Dr. Van Dyke of San Francisco. They are taking water-proof silk tents with bamboo poles for use in the mountains.

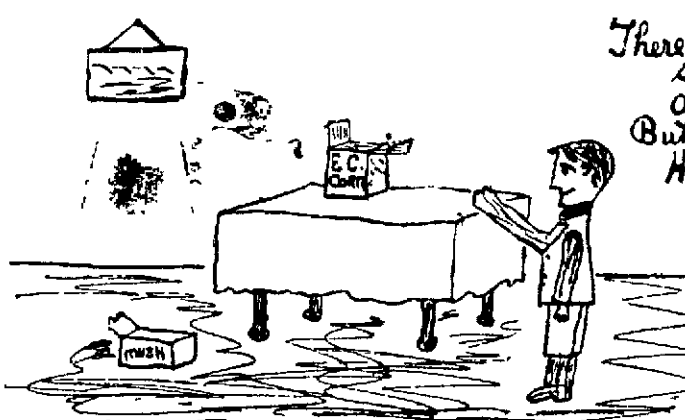

#### M. J. LAYMAN IS GOING TO TONOPAH

Mr. M. J. Layman, president of the Layman Real Estate company, will leave this evening for Goldfield and Tonopah Nevada to look after his mining interests in that section. Mr. Layman is president and principal owner of the Tonopah Monarch Mining company at Lone Mountain. He is also the president of the Lucky Swede Mining company, which owns several claims at Goldfield and has a working lease on the Atlanta Mine and also one of the Keweenaw. On each lease the company has a 25-h-p. gasoline hoist. As the strike at Goldfield is now settled, Mr. Layman says his company will resume work on each lease today.

Mr. H. E. Peterson, the mining engineer familiarly known in Goldfield as the "Lucky Swede" will accompany Mr. Layman on the trip.

# FREE EXCURSION TO CHERRY LYNN TRACT

Car will leave 12th and Broadway Saturday, April 27th at 1:30. Get tickets at our office. Sale begins on the tract at 2:30. Positively no lots sold until the opening. CHERRY LYNN is a splendid old orchard known as the Worley Place in the town of San Leandro and is located near the S. P. station and only one block to main street car line which is modern broad gauge giving best possible service to Oakland.

San Leandro has the most delightful climate to be found in Alameda county, far enough away from the ocean to escape the cold wind and fog, yet free from excessive heat on account of the tempering influence of San Leandro Bay which is near by. The result is balmy atmosphere and sunshine. Very few people here are willing to part with their fine old orchards and though we made every possible effort to secure a larger tract in San Leandro we failed to do so. That is why we are so confident that the small number of lots in Cherry Lynn will all be sold on the opening day and why we are so sure they can be resold at advanced prices.

A citizen of San Leandro said that the only thing in the way of rapid growth of this district is the lack of residence lots. He said there are none to be had. CHERRY LYNN has only 72 lots, two of these will be given away with the bungalow, leaving only 70 to be sold. The extremely low prices we are able to make on these practically guarantee that they will all be sold on the opening day. CHERRY LYNN lots are large enough to allow for a splendid garden, and most of them are covered with full bearing cherry trees.

An \$8500 Bungalow (designed and built by Bruce J. Burnett) together with two of the best lots in the tract will be Given Away.

One ticket will be given free with each lot. After the lots are sold the purchasers will be notified to be present at the distribution of the prize of the house and the two lots which are to be given with it, and some absolutely fair method of drawing will be decided upon.

The bungalow has eight large rooms, and double reception halls with hardwood floors, two handsome mahogany mantles with fireplaces, mahogany bookcase, two built-in China closets, beamed ceilings and decorated walls, modern sanitary plumbing and solid brass hardware. This bungalow is new and would cost at least \$6,500 to build today. It will be moved to the corner lot, and put on the foundation free of cost to the winner.

CHERRY LYNN lots average 40 feet by 147 1-2 feet and range in price from \$300 to \$900.

Lots in this tract will have electric light, city water and the streets will be graded and sewered.

## PRISON FOR THIS BANKER

NEW YORK, April 21—Oliver M. Dennett, the banker and broker, was today held for trial on the charge of receiving stolen property. Dennett was arrested in connection with the theft from the trust company of America of bonds of the Rock Island Railroad valued at \$50,000 by W. O. Doug-

lass, assistant loan clerk who is also in custody. A representative of the District Attorney's office informed the court that Dennett was accused of receiving \$1,000 worth of the stolen bonds and that \$10,000 was a moderate estimate of the aggregate value of the bonds stolen. Counsel for Dennett declared that the bonds Dennett was accused of receiving had been returned to the trust company of North America and that there was really no legal charge against his client. Dennett being unable to furnish bail was remanded to jail.

## REFUSES TO TREAT WITH EMPLOYEES AS UNION MEN

SALT LAKE, April 21—Prospects of an amicable adjustment of the differences between the Utah Light and Railway company and its employees were made more remote today by the reply of President Bancroft to a letter sent him yesterday by C. O. Pratt, on behalf of the men.

Mr. Pratt, who is chairman of the executive board of the Amalgamated Association of Electric and Street Car Employees, sent to Mr. Bancroft a letter saying the employees were willing to leave all points at issue to an arbitration board. In the reply sent today Mr. Bancroft says the only question upon which the company will treat is that of wages. He says the company will treat with a committee of the men but will not treat with

anyone acting as their agent or in the capacity of union representatives. The men now have this letter under consideration.

## UNABLE TO FIND STOPPING PLACE

Mr. John Rosenstein Cannot Locate Where Deceased Brother Was Living

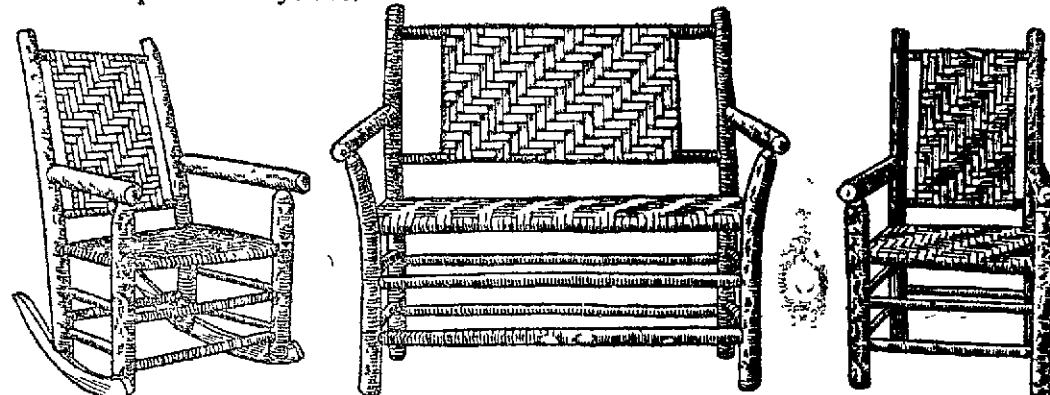

A most peculiar circumstance has arisen in connection with the sudden death of Mr. Saml. Rosenstein, brother to Mr. John Rosenstein, manager of the Eastern Outfitting Company, corner of Thirteenth and Clay streets. The first stopping place of the deceased man is totally unknown to Mr. John Rosenstein, who remembers that the few days only that his brother resided in Oakland having come from San Francisco to transact real estate deal was somewhere on either Ninth or Tenth street west of Washington. As this is important to the holding of an inquest Friday night any person knowing of the latest stopping place will kindly notify the brother of the deceased. But a day previous to the death of the newcomer who was unknown to the family of the deceased, Mr. John Rosenstein had assisted his brother financially in a large overment-house deal wherein the two brothers were buying valuable real estate holdings. Mr. John Rosenstein, the manager of the Eastern Outfitting Company, and brother of the deceased wishes to thank the many kind friends who assisted in the hours of bereavement. Funeral was held yesterday afternoon and tensins interred in an Oakland cemetery.

## NO SILKS OR SATINS; DIVORCE THE RESULT

**Woman Leaves Husband Who Makes Only \$85 a Month and He Obtains a Separation.**

Because an \$85 a month salary was not enough to supply her with silks and satins, Mrs. Catron left her husband, and now he has been granted a final decree of divorce from the woman who refused to live with him because his pocketbook was not fat enough. W. H. Catron is in the employ of the Southern Pacific as a locomotive inspector and was married in this city in 1904.

Catron claims that he gave his wife all his money when he was paid each month, but she declared it was not enough to satisfy her wants. "Your patty salary will not buy the kind of clothes I want to wear," said Mrs. Catron when she left her spouse in 1906 and went to Portland.

## IS ACCUSED OF POISONING RELATIVES TO GET MONEY

**Young Drug Clerk Indicted on Charge of Murdering Wife's Brother and Stepfather.**

ST. JOSEPH, Mo., April 24.—Bert B. Bruce, a young drugist, has been indicted here on the charge of murdering James S. Self and Ernest J. Geisler, his wife's brother and stepfather, respectively. Self died November 13, 1906, and Geisler died April 9, 1906, both under suspicious circumstances.

The lives of Self and Geisler were insured for Bruce's mother-in-law and it is supposed he expected to get hold of money. The bodies were exhumed recently and the contents of the stomachs analyzed.

## NEGRO BEATS AND ROBS CARPENTER OF HONOLULU

**Victim Tells Police Story of Leaving Race-track and Meeting Affable Dark-Hued Stranger.**

A. Buchanan, a carpenter recently from Honolulu, who gives his Oakland address as rooms 33-39 Blake block, was assaulted and robbed last night about 9 o'clock by a negro at the corner of Seventh and Adeline streets. Buchanan says he had a check on the California Bank of San Francisco for \$400, and about \$160 in coin when attacked and this was taken.

Buchanan had been to the race track at Emeryville yesterday afternoon with two friends named Thomas and Baigentine. Later in the evening he says he met the negro, whom he had noticed and talked to coming in on the car from Emeryville. This was shortly before 9 o'clock.

## ESTATE SWELLED TENFOLD AFTER HIS DEATH

PITTSBURG, April 24.—Dying in the belief that he had bequeathed about \$175,000 to charities, John Porterfield, the Allegheny banker, really left about \$1,000,000 for philanthropic purposes. How much more than \$1,000,000 will not be known until the estate is finally settled.

When Mr. Porterfield made his will in 1904 he estimated his estate at \$400,000. After his death a few months ago, his executor discovered that the boom in bonds, stocks and real estate had increased the value of the estate to at least \$1,000,000.

## DECLARES LABOR LEADERS TRY TO COERCE JUSTICE

### President Again Flays Accused Miners

**Says Friends of the Prisoners Have Tampered With the Law's Course.**

WASHINGTON, April 24.—In a letter addressed to Honore Jackson of Chicago, Chairman of the Cook County Moyer-Haywood Conference, made public yesterday, President Roosevelt replies to the criticisms of his recent letter, in which he referred to Moyer and Haywood, officials of the Western Federation of Miners charged with implication in the murder of former Governor Steunenberg of Idaho, as "undesirable citizens." The President says he regrets that any body of men should so far forget their duty to their country as to endeavor by formation of societies or in other ways to influence justice and coerce court or jury; that they, not he, are trying to influence justice and he condemns what he calls their flagrant impropriety in the matter.

He says that he indicated no opinion as to their guilt of the Steunenberg murder, but it was a simple absurdity to suppose that because a man is on trial he is free from criticism as to his manner of life. He says he might as well be accused of trying to influence the courts against Harriman, some of whose friends had also criticized him. He said that Moyer and Haywood stand as representatives of those who habitually appear as guilty of involvement in or apology for bloodshed and violence.

**IGNORES CONDEMNATION.** He added that he was profoundly indifferent to the condemnation of him for his criticisms of the undesirable types of citizens, regardless of either labor or capital. The President's letter to Jackson follows:

"April 22, 1907.  
"Dear Sir: I have received your letter of the 18th instant, in which you inclose the draft of a formal letter which is to follow. I have been notified that several delegations bearing similar requests are on the way hither. In the letter you, on behalf of the Cook County Moyer-Haywood conference, protest against certain language I used in a recent letter, which you assert to be designed to influence the course of justice in the case of the trial for murder of Messrs. Moyer and Haywood. I entirely agree with you that it is improper to endeavor to influence the course of justice. For this reason I have regretted most deeply the action of such organizations as your own in undertaking to accomplish this very result in the very case of which you speak. For instance, your letter is headed 'Cook County Moyer-Haywood-Pettibone Conference,' with the headlines, 'Death cannot, will not and shall not claim our brothers.' This shows that you and your associates are not demanding a fair trial or working for a fair trial, but are announcing in advance that the verdict shall only be one way, and that you will not tolerate any other impropriety, and I join heartily in condemning it.

**CRITICISM ALLOWABLE.** "But it is a simple absurdity to suppose that because any man is on trial for a given offense he is therefore to be freed from all criticism upon his general conduct. I referred to the trial of which you object, I referred to a certain prominent financial man, Harriman, on the one hand, and to Messrs. Moyer, Haywood and Debs on the other, as being equally undesirable citizens. It is as foolish to assert that this was designed to influence the trial of Moyer and Haywood as to assert that it was designed to influence the trial of Harriman. I expressed no opinion as to whether Messrs. Moyer and Haywood were guilty of the murder of Governor Steunenberg. If they are, they are not guilty they certainly ought not to be punished.

**CALLS FOR LABOR.** "But no possible outcome either of the trial or of the suits can affect my judgment as to the undesirability of the type of citizenship of those whom I designated as Messrs. Moyer, Haywood and Debs stand as representatives of those men who have done as much to discredit the labor movement as the worst speculative financiers or most unscrupulous employers of labor and who have done as much to discredit honest capitalists and fair dealing business men. They stand as the representatives of those men who by their public utterances and manifestoes, by the utterances of the papers they control and inspire, both by their words and the actions of those associated with them, habitually are guilty of incitement to or apology for bloodshed and violence.

**TYPE NOT WANTED.** "You would, of course, be entirely within your rights if you merely announced that you thought Messrs. Moyer and Haywood were 'desirable citizens.' Though, in such case I should take them as you and should say that, wholly without regard to whether or not they are guilty of the crime for which they are now being tried, they represent as thoroughly an undesirable type of citizenship as can be found in this country. A type which among some representatives of great capitalists as well as among some representatives of wage-workers.

"In that letter I condemned both types. Certain representatives of the great capitalists in turn condemned me for including Mr. Harriman in my condemnation of Messrs. Moyer and Haywood. Certain of the representatives of labor in their turn condemned me because I included Messrs. Moyer and Haywood as undesirable citizens together with Mr. Harriman. I am as profoundly indifferent to the condemnation in one case as the other, claim as right the support of all good Americans, whether wage-workers or capitalists whatever their occupation or creed or in whatever portion of the country they live, when I condemn both the types of bad citizenship which I have held up to reprobation. It seems to me a mark of utter incapacity to call thus to condemn both, and to apologize for either robs the man thus apologizing of all right to condemn any wrong-doing in private life.

EUGENE DEBS WHO, WITH MOYER AND HAYWOOD, ARE CLASSED AS "UNDESIRABLE CITIZENS."

any man, rich or poor, in public or in private life. "You say you ask for a 'square deal' for Messrs. Moyer and Haywood. So do I. When I say 'square deal' I mean a square deal to everyone; it is equally a violation of the policy of the square deal for a capitalist to protest against denunciation of a capitalist who is guilty of wrong-doing and for a labor leader to protest against the denunciation of a labor leader who has been guilty of wrong-doing. I stand for equal justice to both, and so far as in my power lies I shall uphold justice, whether the man accused of guilt has behind him the wealthiest corporations, the greatest aggregation of riches in the country, whether he has behind him the most influential labor organization in the country, or whether he is a poor man. Very truly yours, THEODORE ROOSEVELT.

"Mr. Honore Jackson, Chicago, 667 West Lake street."

## CHARGE SAILOR WITH MURDER OF LITTLE "CHUBBY" MARVIN

**Detectives Claim That Deckhand Killed Boy on His Father's Ranch and Then Placing the Body in a Bag Hid It Away.**

DOVER, Del., April 24.—Frank H. Butler, a deckhand upon the steamer John P. Wilson, was taken into custody today charged with the murder of Horace N. Marvin, the four-year-old son of Dr. Marvin, the boy who mysteriously disappeared March 4th. The theory of the detectives responsible for the arrest is that the boy was murdered or accidentally killed and that Butler knows something about the case. Butler denies knowledge of the disappearance of the child and reiterates that the boy was seen on top of a hay stack on the Marvin farm, when he and two other men who were mowing the effects of the former owner of the land, who had left the place.

A man named Caldwell, who was working with Butler the day the child disappeared, says Butler was ordered to go to the barn and load up wheat screenings in bags. This he did and when Caldwell later entered the barn he found that Butler had loaded three bags upon the wagon and a fourth was lying upon the floor of the barn. Caldwell says he lifted this bag into the wagon and found it heavy, although Butler had said it was filled with corn. This bag, Caldwell says, disappeared. Acting upon the theory that this bag contained the body of the child, the detectives decided to charge Butler with murder. The opinion among the people of this city and vicinity is that Butler knows little, if anything about the murder.

## 'TRIBUTE' PRICES BY POLICE FOR TENDERLOIN DIVES

SAN FRANCISCO, April 24.—Grand Jurors have already learned that a regular system of payments exists in this city between the Tenderloin resorts and those "higher up" in the police department by which the dives are given protection.

This evidence is said to involve Chief of Police Jeremiah Dinan, captains of the force, several sergeants and scores of policemen. According to the reports received by the prosecution the weekly schedule of graft payments from each disreputable house in this city was:

**GRAFT PRICES.**  
For the policeman on the beat ... \$5  
For the sergeant on the beat ... \$15  
For the captain of the district ... \$25  
For the man higher up ... \$100 to \$1000  
Among the gambling houses the rate was somewhat higher. A well run gambling house that received a heavy play paid about as follows for its protection:

For the policeman on the beat ... \$10  
For the sergeant on the beat ... \$25  
For the captain of the dist. ... \$35 to \$75  
For the man higher up ... \$100 to \$150  
Other resorts of secondary nature were given police protection for sums ranging from \$25 to \$200 a month, according to the evidence which the prosecution has received.

Very little of the story of the holdup of the Tenderloin has been told to the Grand Jury. Captain Mooney stated before the inquisitorial body that he believed such a system of graft pay-

ments was going on, because he could not get some of his men to maintain strict blockades over resorts which he had ordered closed. Captain Mooney's statement has since been backed up by many victims of the police holdup system, who have confessed to the prosecution that they were compelled to make the payments in order to remain in business.

Pay day in the Tenderloin has been Saturday for some time. On Saturdays, in figuring up his profits for the week the resort owner would lay out in separate envelopes the share for the policeman, the sergeant, the captain and the man higher up. When a proprietor complained that his expenses were high and that he was not making as much money as he should, what he really meant was that the "bit" he was forced to pay for police protection was so large that there was little left for him.

**SHAKE UP COMING.** There is little doubt that before the Grand Jury has finished its investigation of the police department there will be a general shakeup of monster proportion. It is said that not more than half of the policemen in the Tenderloin districts will be able to pass safely through the fire of the Grand Jury's search into the police grafting.

The Grand Jury will be back of Captain of Police John Mooney when he is tried for insubordination before the Board of Police Commissioners tomorrow afternoon.

## PENNSYLVANIA CAPITOL SCANDAL GROWING DAILY

Probable Criminal Proceedings Will Be Instituted Against Men of Prominence.

HARRISBURG, Pa., April 24.—As a result of the investigation of the expenditure committee into the expenditure of \$200,000 for furnishings and decorations for the new State capitol, it is probable that criminal proceedings will be instituted by the state against certain persons who have prominently figured in the construction.

MUCH MORE TESTIMONY. The committee has been investigating the charges of extravagance, overcharges, duplication in payments of bills and fraud for nearly two months and have yet to take the testimony of many important persons who have knowledge of the subject under investigation.

Among those to be examined is former Governor Pennypacker. Whether civil suits can be brought has not been determined, but members of the commission are convinced that it has been demonstrated that the charges upon which criminal action can be brought are as follows:

Substitution of inferior materials in violation of specifications.

Overcharging the state for materials.

The value of which it is stipulated was to be fixed by the market price, as well as charging the same prices for articles which were by no means what they were represented to be.

Conspiracy in the preparation of specifications and the awarding of the contracts.

## SKATERS WILL PLAY NEW GAME

As a result of the craze which has developed in Oakland over the new game of football on roller skates, it is said there are to be half a dozen or so of teams formed here to enjoy the sport, including the Oakland High School, White's Academy of Berkeley and several other institutions and skating rinks.

After these teams are organized, it is said, a league will be projected and other steps taken to satisfy the demand for the game which has sprung up so suddenly after its introduction.

The Idera Park Wanderers and the British Hardware Company team, who have already engaged in a number of exciting and hard-fought matches, are to get together again on the Idera Park skating rink later in the week. The sport received its local initiation, next Monday night.

These two teams went to San Francisco a few nights ago and played at the Coliseum rink the first game of the sort which the San Franciscans had witnessed. The contest was the most spirited one which has yet taken place, neither side being able to score a single goal. The innovation proved an exceedingly popular one and plans are now under way for the formation of a number of teams across the bay.

**A. J. Snyder's Piedmont Terrace By The Lake**

Is without a peer for a beautiful location for a home, situated on the low, rolling hills of the Piedmont range, affording the delightful combination of a perfect climate, and yet being adjacent to beautiful Lake Merritt, which lies in the very heart of the city. Two car lines, the Grand avenue and the Oakland avenue lines, afford transportation from the center of Oakland in seven minutes' ride, while by Key Route San Francisco is but thirty-five minutes distant. The prices in this most beautiful tract are astonishingly low, only half what is being asked for property no more desirable. Think of a beautiful lot with the best surroundings for only \$1000, including the street work and sidewalk which is now being done.
